

Scientist- Analytical Development

Full time

FSLA Status- Exempt

Job Number: 9017

Job Summary:

BioFactura is seeking a highly motivated applicant with an entrepreneurial spirit for a position to support our biopharmaceutical development programs.

We are looking for a candidate with a bachelor with two years' experience or a PHD in life sciences with a minimum 1 year of relevant experience to lead the development and qualification of a variety of assays for ensuring product quality. The level of this position will be commensurate with candidate's work experience.

Responsibilities

- Lead and participate in the development, optimization, qualification, and troubleshooting of analytical methods.
- Support routine testing of in-process samples
- Support implementation of new instrument and evaluation of new instruments/technology.
- Transfer analytical assay methods for lot release/stability testing for monoclonal antibody products as needed.
- Provide technical presentations to internal clients.
- Apply technical knowledge and abilities to ensure all testing is performed in a regulatory compliant manner.
- Lead and participate in transfer of methods to Quality Control Group.
- Author and review STMs, Protocols, and Reports.
- Mentor junior staff.
- Performs other related duties as assigned.

This is an excellent opportunity to gain valuable experience with an innovative and growing Biotech company and build a career in the biopharmaceutical industry. Candidates should feel comfortable working in a high risk/potential, high reward environment and be able to work flexible hours, including weekends, as project needs are determined.

Minimum Qualifications/Skill/Abilities:

- Hands-on experience in protein analytics including expertise in at least one of the following: HPLC, CE, and/or LC-MS testing.
 - Experience with SEC-HPLC, Reverse Phase, HILIC, and/or Affinity Chromatography preferred
- Strong understanding with method development Guidance (ICH, FDA, EMA).
- Experience with Good Documentation Practices (GDP).
- Organized and self-motivated.
- Experienced in method development and qualification.
- Excellent communication, presentation, and writing skills.
- Excellent organizational skills and attention to detail.
- Excellent time management skills with a proven ability to meet deadlines.
- Ability to function well in a high-paced and at times stressful environment.
- Familiarity with Microsoft Office Suite.
- Must love to learn!

Benefits:

BioFactura offers a competitive salary and benefit plan including health insurance (medical, dental & prescription), health savings account, EAP and a retirement plan with employer match.

About BioFactura

BioFactura develops and commercializes biodefense drugs, novel drugs, and high-value biosimilars (i.e., follow-on biologics or generic biopharmaceuticals) using its patented StableFast™ Biomanufacturing Platform, the optimal choice for bringing these products to market with faster, lower cost, superior-quality manufacture. For over 10 years, BioFactura has been advancing life-saving medicines from the research bench to the patient using its innovative drug development and manufacturing technologies. Current and past programs include biodefense drugs against smallpox and Ebola, novel medicines for cancer, and low-cost/high-quality biosimilars for autoimmune and infectious diseases.
